HensonGroup

Why Cloud With Us?

Henson Group is Microsoft's #1 Azure Cloud Solutions, OpenAI, and Managed Services Provider

OpenAI | Licensing | Managed Services | Consulting

The Henson Group is the industry's OpenAI expert and Microsoft's top Azure, Modern Workplace and Managed Services Provider. Our customer-centric approach goes beyond traditional managed services, providing end-to-end solutions for your entire cloud journey.

We possess unmatched experience in OpenAI technologies, making us your trusted partner for leveraging the full potential of AI. In our 30-day comprehensive solution, we partner with you to assess ideas and potential use cases for how generative AI can quickly add value to your business. Our experts will lead you in a collaborative and efficient journey from design workshop, to proof of concept.

Copilot Takeoff

Our 30-Day Copilot Takeoff will set up your Modern Workplace environment so it is ready for your users to use Microsoft Copilot safely, securely, and efficiently in their day-to-day work.

Generative AI in 30 Days

Designed to help organizations analyze Generative AI use cases and rapidly prepare for a potential deployment. The offer achieves this by leveraging predefined resource deployment procedures and templates from Microsoft and Henson Group.
